This memo is to inform you that the compounds listed below were not able to be validated by USDA's Pesticide Data Program (PDP) and were not analyzed in nectarines during the timeframe of January 2013 through December 2015. These compounds have established U.S. tolerances for nectarines but did not recover through the QuEChERS Multiresidue Method (MRM) employed by the California Department of Food and Agriculture laboratory, which was assigned to test nectarines for PDP during this time period.
